### No Harmony With an If.

Under the caption Te's Qui the Fiesto Republican urges kep ibl cans to cease fighting a rong themselves and line up in support of the 'regular party ticket he litesno paper finds that there is merit in regularity after all. But would it be giving the same advice if Ciris or Anderson sad recised the Cubernatorial nomination? There is point here in the old saw about orthodoxy being my doxy and heterodoxy being the oth \* fellow's doxy

But, asks the Republican, 'who is knocking the ticket?' The Republican ve should say. It is b osting Judge I awlor in a manner that is invidices to sav the leat toward one of the Republican nominees on the Supreme ourt. So is the Los Angeles I spress, the Stockt i Record the ultic degis er, the Watsonville Paja roman and the California Weekly. The San Francisco Bulletin is open supporting I awar and opposing Judge Melvin. That is not strang I we er for Iren int Old ris I two signide, pulosopher

If wever, the it its decoths group of I media Ronsevelt I eague journals towards ladge Welvin is no indicative of a friendly feeling for him. The r h. stills or I two is equally indicative of a desire to see n in elected. During the princips campaign all these journals threw mad at Judge Melva, and then s lence since shows no mutigation or hostility since that are aking pains to advertise Judge I awlor in a flattering light

Shortly after the primary election the Presno Republican took occasion to disparage the Republican nominees for State Printer and Secretary of State. But perhans the Fresno Republican means only the men who are running und r the personal auspices of Chester H. Rowell when it speal's of the "regular' Republican ticket, regarding the others as irregulars who have climbed onto the band wagon without permission of the driver

By a'll means let us have harmony in the party. Harmony is a good thing, almost an ind spensal le thing in party organization But harmony is as broad as it is long. It will not reach further in one direction than it goes in the other. It is based upon good faith and fair dealing. It is useless for men with knives out for some candidates to arge the voters to line up for other candidates. Treach ery provokes retaliation. I en suspicion of treachery excites resent ment which in turn begets disunion and inharmony. Hence if the plea for harmony is mide in good faith, it should be accompanied by such evidences of good, aith that suspicion will be banished.

The wisdom of unity and harmony is beyond dispute. THF TRIBUNE believes the party should get together and unite behind the ticket, but unity of purpose and action is impossible if one section of the party is preparing to kn te certain candidates at the polls The faction victorious in the prinaries cannot afford to proser be candidates presented by the other faction. Let us have harmony by all means, but let us have har nonv in real earnest-no saving how is it, my brother, with the knite whetted for the isting inder t ie fiith iib.

All the non-mations fo. Congress have not yet been made but enough have been made to show that the usurgents will get Beef Cattle Scarce in California. less than cre-third the fournees. Only three of the Ohio nonlinees are insurgents In Pernsylvania not one of the non-meet is an insergent. In Illimois the regulars named twenty four of the 'wenty seven Congressional candidates. There is only one on and out insurgent in all New England New Jersey is regular. So is New York in the matter of Congressmen Missouri has nominited only one usuigent. This when we get down to a count of noses we see that the insurgents constitute nerely a fraction of the Republican party. They cannot come within a mile of controlling the Republican caucus and hence are powerless to direct party action of carry through measures. In the next House they will have to let with the regular Republicans or the Democrats. That was the ilternative that confionted them at the last session and they cast their let with the Democrats The muss they have kicked up thay give the House into Democratic control, but in no event can the insurgents exert a controlling influence

The Colonel appears to have become what the English call i cropper in New York. The Old Guard leiders confidently assert that they have a majority of fifty the for Nice President Sherman Lloyd Guscori still sixs Risseven will win, but he gives no figures and appears to rely upon. White House influence and Governor Hughes to pull down enough delegates elected by the Old Guard to reverse the verdet of the primary. It is quite certain that the Colonel's faction has not elected a majority of the delegates and that influence and manipulation are his hope of gaining control of the Empire State convention. Out here it is not very clear what the row's about, although it appears that the Colonel has decided to give the Republican party in New York a new set of leaders. The old leaders do not appear to relish being summarily deposed and are putting up a fight with Vice-Pres lent Sherman is their candidate for temporary chairman he Col nel wants that job himself so he can appoint the committees

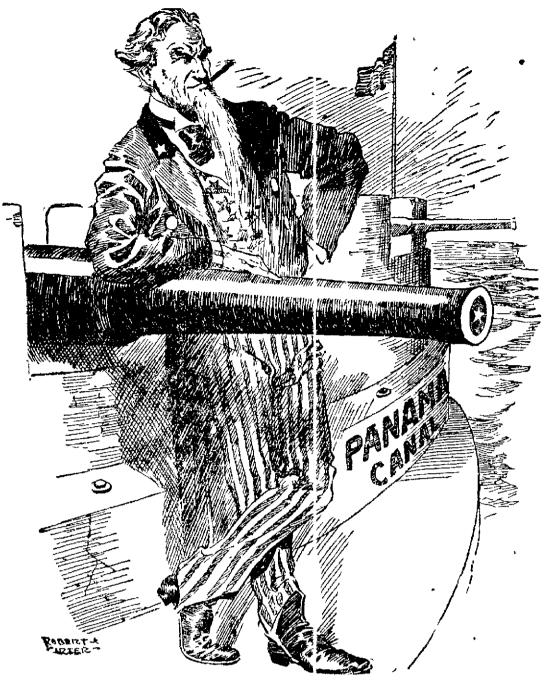

The defeat of James A. Tawner in the Minnesota primaries was not unexpected. Colonel Pooseve. Cufford Pinchot and Prancis I. Henes all invaded his district and hid what they could to down him Mr. Tawney offended the Colonel by bringing out the fact that Hency was on the payroll of the government while acting as Assist ≥nt Discict Attorney of Sin Francisco and by directing public attention to the circ mons sums expended by the Secret Service Burean cost s why Heney appeared in his district to campaign ngainst the entry in it the House Appropriations Committee Pinchot's gift mee was hat lawney out out an appropriation the forner one a rester lested. # PIANO BUYERS PROTECTIVE ASSOCIATION

THE ASSOCIATION THAT PROTECTS, SAVES MONEY AND INTEREST

THE H. HAUSCHILDT MUSIC COMPANY have been appointed sole representatives of this great organization for California. One thousand Pianos have been ordered for the members of this association in this state. This accounts for the very liberal proposition we are able to offer.

THE PIANO BUYERS' PROTECTIVE ASSOCIATION was formed to protect its members against high prices, cheap stenciled pianos, worthless imitations, exorbitant interest, and many other features for the protection of piano buyers.

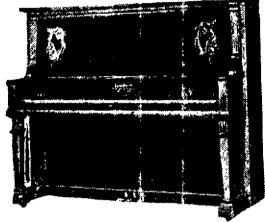

By joining this association you can take advantage of the most liberal terms ever offered. To begin with, each member saves \$114 on their piano. In case of death of a member all suture payments cease and a receipt in full is given to the family of the deceased. If your piano is destroyed by fire during the life of your contract we will give you a new one. We will give you free music lessons three months. If the piano is not perfectly satisfactory at the end of thirty days we will give you your money back. You have the privilege of exchanging your piano any time within two years, and we will allow you the full amount paid on any piano or player piano in our establishment, and we carry over twenty of the principal makes. BEST OF ALL, we give you over two hundred weeks to pay for your piano and absolutely no interest or extras of any kind are added. Two hundred and eighty-six dollars is all you have to pay, and that includes everything.

The Association Piano Is Worth Four Hundred Dollars, But the P. B. P. A. Price is Only . . . .

Six dollars down and twenty cents a day for two hundred weeks pays for a celebrated JESSE FRENCH PIANO. The piano selected is immediately delivered to your own home; you do not have to wait until the other members have been secured.

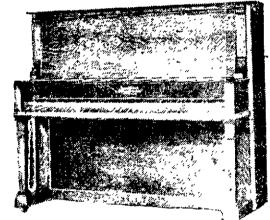

REMEMBER, there are no extras of any kind; nothing added for drayage, stool, interest, music lessons, tuning, or for the life or fire insurance features. Two hundred and eighty-six dollars includes everything. There is nothing more to pay. Ve give you the strongest guarantee that is possible for us to write.

The reason that we are able to offer you such tremendous inducements to purchase an Association Piano is because one thousand pianos have been placed at our disposal for the piano buyers of California. We have made arrangements for several car loads of these pianos to be delivered weekly to our Oakland store.

# 12 Reasons Why You Should Join the Piano Buyers' Protective Assn.

- 1. Each member gets a \$400 Piano for \$286, a saving of \$114.
- 2. Easiest terms: \$6 down, \$1.40 a weeli.
- 3. You are allowed 200 weeks to pay for your Piano.
- 4. A ten-year written guarantee is given with each Piano.
- There is no interest to pay, no extras of any kind.
- 6. Free fire insurance on your Piano.
- 7. In case of death all future payments are canceled.
- 8. Cash rebate of 60c allowed on every four weeks paid in advance.

Since parting from her husband Mrs. Christy has been engaged in newspaper work in New York.

It was on January 28 that Probate Judge Smith of Zanesville. Ohio, handed down a decision in the Christy case. Lydia E. Pinkham's Vegetable Compound

What is the use of procrastinating in the face of such evidence as the following letters represent? If you are a sick woman or know one who is, what sensible reason have you for not giving Lydia E. # JOHNSON AND LANGFORD MAY AGREE TO MEET IN ARENA

Will Talk Over Match at Boston This Afternoon; Johnson Wants Forfeit of \$20,000; Hogan and Smith to Clash on Friday

### By EDDIE SMITH.

John Artha Johnson and Samuel Langford, the premier heavyweight pugilists now in the public eye, met in the ring of the Armory Athletic Club in Boston last night by accident, and after a few words fired back and forth they agreed to a meeting place for tew words ared back and forth they agreed to a meeting place for today, at which time it is just possible that a match between the two may be arranged. Jack asks his black brother to post the very modest sum of \$20,000 as a forfeit and side bet if he wants the match and Sammy has agreed to do so. If the match is made and Langford is compelled to make this side bet he will practically be lightly behavior at large \$2000 for the carried with the side. giving Johnson at least \$8000 for the privilege of meeting him for the championship. Johnson would be at least a 10-to 6 favorite in the betting, so it is easy to see how Johnson could make this sum by laying off his bet.

As usual, when Johnson and Langford get together, some per-

sonalities were indulged in and the bad feeling existing between the

gentlemen of color was aired to the crowd at the ringside.

Langford pulled the old bluff of being willing to meet Johnson in a basement for the side bet money and perhaps thought he would get away with a great press stunt. That sort of thing is too stale, however, and with Johnson it is a joke. Any time Langford or his manager, Joe Woodman, get into a wir of words with Johnson they are sure to be bested. Johnson is as keen of wit as any pugilist who ever pulled on a glove, and he is not the sort to be bested easily.

### MATCH WOULD CREATE SOME INTEREST.

A match between Langford and Johnson would create some interest, but not sufficient to warrant any very great fuss being made over the bout. Two black men seldom do prove a good card and this bout would be no exception to the rule. Langford has been after Johnson for more than two years and this is the closest he has ever come to getting a match. If the men meet today and sign articles the match will be staged at either of two places—Nevada or London. The Manual of the staged at either of two places—Nevada or London. London. The English clubs are sure to make a bid for the match The men were matched once by the National Sporting Club of London, but when Johnson got the chance to meet Tommy Burns he ran out on the match. Johnson and Langford met once at Boston in a fifteen-round contest at which time John Artha won handily.

HOGAN IS FAVORITE OVER SMITH.

"One-Round" Hogan has been made a 10-to-9 favorite over Frankie Smith in the four-round contest that is to be staged at the Dreamland Rink next Friday night. This is simply a feeler for the bettors, as Hogan will be at least a 2-to-1 favorite at the ringside. Smith and Hogan should put up a good battle. Frankie has trained faithfully and is in excellent condition, and Hogan has done consid-

bettors, as Hogan will be at least a 2-to-1 favorite at the ringside.

Smith and Hogan should put up a good battle. Frankie has trained faithfully and is in excellent condition, and Hogan has done considerable work for the match.

Hogan is right at home in the feer-round game and should prove the winner, although Smith has improved considerable since going east, and it may be that he will show enough speed to out-point the four-round champion. The card as irranged for the show looks to be a good one and the fans from this side of the bay will no doubt fine the feet of the show looks to be a good one and the fans from this side of the bay will no doubt fine the feet of the show looks to be a good one and the fans from this side of the bay will no doubt fine the feet of the show looks to be a good one and the fans from this side of the bay will no doubt fine the feet of the soul.

Louie Blot has announcer his card for the last day of this month. The list fails to reveal any bright particular stars in the puglistic limelight, but the matches are of the character that should be productive of good results.

Jimmy Carroll and Sammy Keller are to meet in the main event, while Frankie Harris and Eddie Donnis and Rufus Williams and Kid George will make up the preliminaries. The contests are all to be ten-tound affairs, and as revalry exists in the camp of all the ematches should draw fairly well. The main event will be a hummer. Carroll is anxious to set asside the defeat by Keller here in Oakland and he will be in better condition for this bout.

WOLGAST GOES AFTER EASY MONEY.

Ad Welgast has made up his mind that he can not get the uncalled-for sum of money that he demanded for a meeting between himself and Abo Attell and has agreed to meet Tomny Gary, a Children of the control of the start of the same of the control of the same of is that he is a good third-rater. The men are to meet at Fond du Lac, Wisconsin, on the 29th of this month. Jim Griffen has about given up hope of getting Attell and Wolgast, for in each case the men want more than they are worth.

### FOLEY TELLS STORY ON MONTE ATTELL.

The irrigation of the soil seems to have made the faims look better and there is a season. See the seals a couple of times of the soil seems to have made the faims look better and there is a season. the slightest doubt but that the irrigation water will make this country very wealthy in farming produc s in a short time." Today the great union railroad bridge from Newerk across the San Francisco Bay was officially opened for traffic.

The completion of the bridge marks one of the great triamphs of intelligent, sliffed labor. Fit almost four years hundreds of killed mechanics and laborers und rathed hard products to solve and great difficulties to comend with but they had hard products to solve and great the work is completed and stands forth a lasting monument to their honor.

The opening of this bridge marks an era in the developm it of Call fornia and of our own own of Newark and a we meet nere loright to reflect upon this and the g od providence of God that has brought it to pass, it seems no wouns could be found more appropriate to direct our thoughts than those of the text.

apparently nothing to rave over, but delve under the surface of these facts and at once one is confronted first, with the immensity of the work and, secondly, with the countless good this tremendous span this 20th century "Colossus of Rhodes" will do for different interests in various clitics, but particularly Newark, and thereby hangs a tale—let us cell it "The Birth of Newark."

### NEWARK'S EARLY HISTORY.

It seems that back in the early so's enator J. G. Fair conceived the idea a narrow gauge railroad from what now known as the Alameda pier to sata Cruz. Among the important frems is now known as the Alameda piec to Santa Cruz. Among the Important Ferms in this connection was the selection of a suitable location for the ralload's shops and car barns. After carrial consideration the most suitable site was solected and work immediately started. At that lime there was at this spot pothing more than an old ark which was the butt of more or less jecting until some one suggested calling the rapidly rising car barns the "now irk" or, as this location rapidly grew in popular tion and in the amount of business ione until Senator Fair established a newspaper there with Frank Moffit at the chead. Then Newark's influence became fett in politics until very shortly Frank Moffit was political boss of Alameda county.
